## Wine & music mood

Tell us what kind of music mood you're in and we'll suggest a suitable wine.

Wine, mood and music... how are they all related?

A wine experience and a musical experience are similar in that they stir up similar emotions. As is the case with music, choosing your wine style depends not only on your taste but also on your mood and mindset. To help you choose your very own wine style, we have created six different mood categories that connect music styles with different types of wine.

### Easy Pop

These wines are as easy to drink, as pop music is easy to listen to. If you're looking for a taste that is fresh, fruity and fun then look no further - these wines are the perfect match for you. Allow yourself to let go of complexity and remember that joy can be found in the simplest of things.

### Complex Rock

The fruity notes of these wines create a complex symphony that can only be found in a good rock song. Their complexity gives them character - the whites have a mineral aroma supported by just the right amount of acidity, which is guaranteed to rock your palate. The reds are medium-bodied and tend to be more structured with tannins and acidity playing together to create a certain rhythm, much like drums and bass guitars do in rock music.

### Refined Classical

These medium-bodied wines exhibit a captivating complexity with their refined aromas. They are more savory, elegant and subtle than they are opulent and luxurious. As is also the case with classical music, you don't have to be an expert to appreciate the finesse, but add some experience and you are sure to appreciate every subtle note these fine wines have to offer.

### Sensual Jazz

Allow yourself to be swept away by the jazzy, sensual smoothness of these velvety wines. They are round and unctuous with notes that capture your attention with their intensity. The whites are creamy and buttery, while the reds offer the silky touch of tannins. These are the perfect wines to choose if you're looking for relaxation, but also want to experience a fair amount of complexity.

### Heavy Metal

If you've always wanted to know what it feels like to have an AC/DC concert in your mouth, this music mood is designed for you. These wines are bold and typically red, although there are some white headbangers that we offer from time to time. The rich, fruity and chewy flavours are as generous as the climate in which they were made and are guaranteed to take you to the promised land!

### Masterpiece

If you prefer to march to the beat of your own drum, these wine masterpieces are the perfect choice. Each of these wines is a unique blend of notes and melodies, with a level of organised complexity that can only be found in a balanced symphony. Can you conduct your own orchestra?

## Sparkling wine & Champagne
