Wine music mood

Tell us your music mood, and we will suggest a suitable wine.

Wine and music; how are they related?

Wine and music evoke similar emotions. Just as your choice of music can depend on your taste, mood, and preference, so too can your choice of wine. To help you decide we have created 6 "moods" of wine and compared them to different genres of music.

Easy pop

Just as the name suggests, Pop(ular) music is easy to listen to and is enjoyed by a wide audience. In this category we have placed wines that are easy to drink and have fresh, fruity, and crisp characteristics. They don't usually have much complexity so they are easy to enjoy whether you're looking for a "Bad Romance" or just want to "Shake it Off".

Complex Rock

What a great melody does for a rock song, the fruitiness does for wine. These wines are more complex than the wines from the previous category. The white wines show some mineral characteristics and a nice acidity that lifts them like a mind-blowing solo from Jimi Hendrix. The reds are usually medium bodied where the tannins and acidity work together to make you feel like you're driving on "The Highway to Hell" or walking on "The Stairway to Heaven".

Refine Classic

In this category you will find wines that everyone can appreciate as they have a lovely, refined complexity. But just like with classical music, a dash of experience can show the subtler notes of their melody. The tasting notes in these wines are more savoury, elegant and subtle. Imagine the delicate melodies of Vivaldi, not so much the booming drums of Tchaikovsky.

Senzual Jazz

The sensual smoothness of these wines will enchant you like the mesmerizing sounds of jazz. They are smooth, rich and round. White wines from this category are creamy and possess a certain volume while the reds are velvety with silky tannins. Some of them can show a high level of complexity. Try these wines if you want to be "Feeling Good" or if you want us to "Fly you to the Moon".

Heavy metal

If you feel like having a Metallica concert in your mouth these are the wines for you. Mostly red, these wines are bold, rich, fruity, with chewy tannins that usually come from warmer climates. Of course some white wine will also fit in this category. Now put on a leather jacket and try them to become the "Master of Puppets" or ride the "Crazy Train".

Masterpiece

Irrespective of style, from Beethoven's Fifth Symphony to Queen's Bohemian Rhapsody, these wines are true masterpieces. The level of complexity, purity and balance reached in these wines is rare. Only a few labels can even aspire to be in this category.
